## DETAILED ACTION

### *Reasons for Allowance*

The following is an examiner's statement of reasons for allowance:

1. Claims 8-10, 15, and 16 are allowed because the prior art does not teach or suggest a method of designing a semiconductor integrated circuit, comprising: checking each border edge of a block area so as to determine whether a border edge is a first border edge where an external connection terminal is provided or a second border edge where no external connection terminal is provided, providing a shielding line which is at a second distance from the second border edge and runs parallel to the second border edge, determining a layout of the block area through floor planning, placement and routing extraction resistance and capacitance from the layout, for delay calculation and, layout check. by utilizing the wiring prohibited area for the first border edge and the shielding line for the second border edge, and completing a layout of the block area through the delay calculation and layout check, and including all of the features as recited in combination.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
